

CAN I CRASH AT YOUR PLACE FOR a WHILE?

At CCHS, we strive to help local shelters by taking animals from their facilities and placing them in foster homes. We rely on local volunteer foster families to provide the love and care necessary for these transitional animals. Therefore, we are only allowed to save as many animals as we have available foster homes. CCHS pays for all food, supplies and medical expenses needed. CCHS is in desperate need of foster homes. If you would like to learn more about fostering and how you can make a difference, please visit www.cchumane.org or call 925.279.2247
